

FIRE DOOR SAFETY WEEK 2021

286

The number of fire-related fatalities recorded in the UK in 2019/20

vs

317

The number of fire-related fatalities recorded in the UK in 2018/19

From 2000-2012, there were consistently 500 or more fire-related deaths each year

There has clearly been an **improvement in fire safety and awareness**, and the **Fire Safety Act 2021** will help improve things further

VIGOR:II

BUT EVEN ONE FIRE-RELATED FATALITY IS ONE TOO MANY

WHY FIRE DOORS SAVE LIVES

And are a legal requirement in all UK commercial and multi-occupancy residential properties

FD30 Fire Doors

FD30 Fire Doors offer 30 crucial minutes of protection against the spread of fire

Thereby giving people inside a building plenty of time to escape

And the fire brigade time to get the fire under control

FD30S Fire Doors

FD30S Fire Doors not only offer 30 crucial minutes of protection against the spread of fire

...but also deadly smoke

Smoke inhalation alone is responsible for around 40% of all fire-related deaths

VIGOR:II

EVERYONE AT VIGOR DOORS IS DEEPLY PASSIONATE ABOUT HELPING SAVE LIVES

Our high-quality FD30 and FD30S Fire Doors are designed and manufactured in the North East and installed right across the UK
